# Ritwik Raj Srivastava

## Software Engineer & Tech Lead | Android & AI Specialist

**7004231285** | **raj.ritwik96@gmail.com** | Mumbai, India
LinkedIn: https://www.linkedin.com/in/ritwik787 | Portfolio: antimkhel.github.io/IAmA

## CAREER OBJECTIVE

An AI-first Software Engineer with over **6 years** of expertise in architecting and implementing complex applications through an **AI-Native SDLC**. Specialized in leveraging **Generative AI** and LLMs to radically accelerate development workflows and engineer intelligent, agentic features that redefine user experiences. Committed to pushing the boundaries of AI-driven development to solve sophisticated technical challenges and deliver high-impact Android solutions.

## PROFESSIONAL CERTIFICATIONS

**AWS Developer Associate** - Certified (Validation number - **QCCQZQMDJMV4Q9SZ**)

## TECHNICAL SKILLS

- **Languages & Frameworks:** Kotlin, React Native, Jetpack Compose, MVVM, Retrofit, Dagger/Hilt, Material Design.
- **AI & Generative AI:** LLM Integration, Agentic AI, AI-Native SDLC, Machine Learning.
- **Tools & Infrastructure:** Git, Jenkins, AzureDevOps, Postman, SonarQube, Figma, Zeplin, AWS.

## EXPERIENCE

**Reliance Jio, Mumbai** - ***Software Developer Engineer***

OCTOBER 2021 - PRESENT

Job functions

- **Spearheaded AI Transformation** across the MyJio ecosystem by implementing an AI-Native SDLC (ADLC) to accelerate development velocity.
- **Architected MyJioAgentic**, a sophisticated AI-driven chatbot that automates complex user tasks and enhances interaction through agentic workflows.
- **Led cross-functional Android development** for flagship products including MyJio, JioAICloud, JioMart, and Jio Financial Services (JFS).

- **Engineered the Jio Design System** using Jetpack Compose, ensuring visual consistency and UI scalability across multiple high-traffic applications.
- **Developed a custom OTA Updates system** for React Native, enabling rapid hot-patching and feature delivery similar to Microsoft CodePush.

### HSBC Holdings Plc, Pune - *Software Developer*

JULY 2019 - OCTOBER 2021

Job functions

- **Architected scalable payment journeys** for international banking, utilizing Kotlin and modern MVVM patterns to deliver high-performance user experiences.
- **Optimized application stability** by increasing test coverage through comprehensive Unit, UI, and Integration testing frameworks.

### Oxigen Services Pvt. Ltd, Gurugram - *Software Developer Intern*

MAY 2018 - JULY 2018

- **Integrated Google Maps API** into the Future Pay app to enhance location-based services.

## EDUCATION

**National Institute of Technology, Hamirpur**
Computer Science and Engineering | 2015 - 2019
**CGPI – 8.32**

**Sri Chaitanya Junior College**
XII (Senior Secondary) - CBSE Board | 2013 - 2015
**Percentage - 95.8%**

**Ran Vijay Singh Academy**
X (Secondary) - ICSE Board | 2012 - 2013
**Percentage - 90.2%**

## AWARDS AND CERTIFICATIONS

- **Secure Code Warrior: Yellow Belt** in Kotlin SDK for secure mobile application development.
- **Machine Learning Specialization** – Coursera (Stanford University & DeepLearning.AI)
- Scored 92 percentile in CAT 2019 and was offered place in **IIM Nagpur**
- Delivered a seminar on "**Data Streaming with Apache Spark and Big Data Analytics**" at N.I.T Hamirpur.
- **Skoch Awards 2026 Gold Award winner** for JioAirSync (Custom RN OTA)
